HEALTHY SAVING HABITS FOR KIDS

Saving is a learned behavior. It's something that kids need to practice over and over from an early age. When teaching your child how to save money, it is important to start early and explain it in a way that is easily understood for children.

Here are six steps to help your children develop healthy savings habits:

1. Start early
2. Link saving to a goal
3. Create a plan
4. Develop the habit
5. Brainstorm income opportunities
6. Celebrate their success
